

Specifications

Material

- » Cell cast acrylic

Finish

- » Matte non-glare
- » Gloss

Sheet Size

- » 24" x 48"
(610 x 1219mm)
- + 0, - .125"

* Thickness 2-ply

- » 1/8" (3.2mm) Use CC342 as first digits of item code.
- » .236" (6.0mm) Use CC352 as first digits of item code.

* Cell Cast Acrylics have thickness variations that may present difficulties in applications where thickness tolerance is important (i.e. fitting into extrusions, thermoforming applications where walls must maintain uniform thickness, and assembly of complex structures). Remember to check gauge when non-contact engraving takes place, and to periodically re-check focal lengths when laser engraving. In some cases, thickness variations may require the operator to make multiple passes during laser engraving.

Usage

- » Interior signage
- » Exterior signage

Engraving Method

- » Laser
- » Router
- » Rotating carbide

Cutting Depth

- » .003" (.08mm)

Fabrication

- » Saws
- » Bonds
- » Hot stamps
- » Screen prints
- » Laser vector cuts
- » Permits fine detail engraving
- » Back-filling
- » Back-lighting
- » UV stable
- » Outdoor weatherable

Rowmark®

ColorCast Acrylics is a cell cast acrylic product that is harder and has greater optical clarity than extruded acrylics. This product is great for fine detail reverse laser engraving, and you'll find them to be the perfect application for Point-of-Purchase displays and outdoor signage.

ColorCast Acrylics are also available with a gloss finish as shown here. To order ColorCast Acrylics with the gloss finish substitute a "G" in place of the "M" found at the end of each item code.

Gloss Finish
