Natural variation in color is to be expected with this product. Cell cast acrylics have thickness variations that may present difficulties in applications where thickness tolerance is important (i.e. fitting into extrusions, thermoforming applications where walls must maintain uniform thickness and assembly of complex structures). Remember to check gauge when non-contact engraving takes place and to periodically re-check focal lengths when laser engraving. In some cases, thickness variations may require the operator to make multiple passes during laser engraving.

Features & Specifications

Material: Cell cast acrylic

Finish: Translucent, Matte non-glare (one side) and gloss (one side). White and Black are solid opaque matte non-glare (one side) and gloss (one side). Clear, Ice Blue and Glass Green are translucent and gloss on both sides.

Sheet Size: 24 1/8" x 49" (613x 1245mm) -0, +.125" (3mm)

Gauge: 1/8" (3 mm) +/- .012" (.3mm)
1/4" (6 mm) -0, +/- .024" (.6mm)
Gauges are approximate.

Usage: Interior and exterior signage component or substrate, ADA compliant for tactile signage, art & design, exhibit/tradeshows, lighting and point-of-purchase display.

Fabrication: Laser, router, rotating carbide, saw-cut, drill, heat bendable, direct digital print, screen prints and paintable.
